## About This Game

Play as a ninja in this VR stealth assassination game. Destroy or sneak past security bots in a dystopian Japanese setting. Work your way to disrupting and destroying a criminal syndicate with varying challenges along the way.

## Key Features

- Ninja your way through gritty cyberpunk streets and dark dangerous corridors.
- Outsmart and destroy Securo bots hacked to protect the criminal syndicate.
- Wield cybernetic swords and unleash super-charged shurikens upon your enemies.
- Get *Justice* for your Fallen Clan!

**On Tilt Interactive Community Server**:
Hi Tilters, we have created a Discord server, we want to see people giving feedback on our games, discussing VR and catching up on VR news and having a bit of fun with developers. If your interested jump in and have a chat with us!

https://discord.gg/Gnpuczq. **Update build 0.4**:
Hi guys, we are releasing a rather large update tomorrow for the Justice Demo. These changes will cover the following:

Fixes to the lighting for improved vision
Fixes to UI
Main menu
In game data pad
We added a tutorial
Changes to the outdoor level
Reductions to enemy sight radius
Added a death and victory scene
Fixes to sound

Jump in and give it a test for us!
