ORION: Prelude Download For Pc [Patch]

Download >>> <http://bit.ly/2SJTFdd>

## About This Game

'ORION: Prelude' is an indie Sci-Fi shooter (FPS/TPS) that seamlessly blends together incredible visuals and addictive combat. It puts you and your friends together into intense, cinematic battles using some of the most incredible weaponry and amazing vehicles in which you must work or compete against one another to accomplish mission objectives, explore giant worlds and survive the devastating Dinosaur Horde.

In addition to the return of the adventurous, survival-based cooperative gameplay and retro-inspired Arena Combat, 'ORION: Prelude' features massive, Open World Cooperative and PvPvE.

\*Previous version names include ORION: Dino Beatdown (2012) and ORION: Dino Horde (2013).

## OFFICIAL ORION DISCORD!

*Rewards, Progression & Behind-The-Scenes*

<https://discord.gg/RykWMpC>
